Subject: HAMP Environmental Assessment vs Environmental Reviews per Each IHS Project

Afternoon Juliane (New IHS PHX Area NEPA Coordinator),

Per our phone conversation yesterday, the projects that we are planning to move towards construction that have overlapping scopes with the HAMP Environmental Assessment and subsequently issued IHS FONSI are as follows: PH 11-E55, PH 12-E73, PH 14-U62, PH 15-U76, and PH 15-E89. Projects PH 11-E55 and PH 12-E73 do not have an Environmental Review on file as each one mentions an Environmental Assessment in the "Environmental Considerations" section of each respective Project Summary. Projects PH 15-E89 and PH 14-U62 both have an Environmental Review on file and allude to the HAMP Environmental Assessment in the "Environmental Considerations" section of each respective Project Summary. The PH 15-U76 project is different from the rest in that it has additional scope that is not in the HAMP per the PER. For that reason, PH 15-U76 will have completely standalone NEPA documentation including the overlapping HAMP scope.

The Environmental Assessment with appendices and FONSI can be found at: O:\Sanitation Facilities Constr\Eastern AZ\Hopi\ARSENIC MITIGATION PROJECT\PRELIMINARY ENGINEERING REPORT\ENVIRONMENTAL ASSESSMENT

Also, the relevant above referenced project documents were just uploaded to: O:\Sanitation Facilities Constr\Eastern AZ\Hopi\ARSENIC MITIGATION PROJECT\PRELIMINARY ENGINEERING REPORT\ENVIRONMENTAL ASSESSMENT\HAMP Project Summaries and Environmental Reviews

Thanks,

Jesse
